

The policy of the Department of Radiology is to verify that female patients in the childbearing years (ages eleven to sixty) are not pregnant before being exposed to x-rays, radiation, or a magnetic field.

To help us protect an unborn baby from receiving radiation exposure, please answer the following questions:

Is there a possibility you may be pregnant?

_____ Yes _____ No

Please state date of last menstrual period: _____

Have you had a hysterectomy?

_____ Yes _____ No Year _____

Signature of patient

Patient name printed

Signature of Witness

Date
